

# Weekly Evaluation

## ICT

### Grade 4

**First Term 2024 / 2025**

### Put (✓) or (X) :

- 1 Assistive technology enables people of determination to do their work. ( )
- 2 Hearing aids are an aid for people with visual impairments. ( )
- 3 Assistive technology enables people with disabilities to explore the world safely. ( )
- 4 Screen magnification software enables people with hearing impairments to interact with a computer. ( )
- 5 People of determination use assistive technology in their daily lives. ( )
- 6 Alternative communication software helps people with disabilities communicate verbally and linguistically. ( )
- 7 Information and Communication Technology tools help you search for information on the Internet ( )
- 8 Updating software is one of the proposed solutions to solve the problem of not being able to open applications ( )
- 9 Assistive technology enables people of determination to explore multiple places around the world. ( )
- 10 To solve the problem of a malfunctioning mouse, a new keyboard is purchased. ( )
- 11 The personal computer and laptop are considered ICT tools. ( )
- 12 To solve the problem of the screen stopping displaying information (Screen freezes), press the keys (Alt+Ctrl+Del) together for a short period. ( )
- 13 Surveys are among the most common sources for collecting data. ( )
- 14 Entertainment videos and press interviews are credible or reliable sources for collecting data. ( )
- 15 You must ensure that the information collected about any problem is correct. ( )
- 16 The Paint app is one of the useful digital tools for analyzing and graph data. ( )
- 17 It is preferable to express the data collected about the problem in a graph before the data analysis process. ( )

- 18 Magazines, books and articles are reliable sources for collecting data. ( )
- 19 Computers and smartphones are used to communicate over the Internet. ( )
- 20 Your personal data must be available for all users to see and keep. ( )
- 21 Text messages and emails are used through forums to communicate with friends. ( )
- 22 Spam messages are emails that you receive from an unknown email address and contain an advertisement. ( )
- 23 It is necessary to know the identity of the person you are having a conversation with over the Internet. ( )
- 24 The download feature enables you to block unwanted people through social networking sites. ( )
- 25 You can tag your friend on social media by using the Tag ( )
- 26 It is not Important to credit sources of the information when publishing it on social media. ( )
- 27 Excessive use of electronic devices may cause eye strain and headaches. ( )
- 28 You can publish information about your friends on social media without their permission. ( )
- 29 ICT tools must be used in an ethical and wisely. ( )
- 30 When publishing information on the Internet, the source of the information must be credit or mentioned. ( )
- 31 Secure browsers are those that send alerts to users when they try to access an unsecured website. ( )
- 32 It is better to write accurate keywords to get better search results ( )
- 33 Browsers designed for children display content appropriate for their age groups ( )
- 34 Using a specific image, you can search for information about it using an image instead of words. ( )
- 35 Browsers designed for children allow parents to monitor and follow up. ( )
- 36 During the search process on the Internet, you can use the symbol ( - ) before words that you do not want to include in the search results ( )
- 37 Bullying is when someone repeatedly behaves badly towards another person. ( )

- 38 Identity theft is when others use your personal information and social media accounts without permission. ( )
- 39 Obscene posts are considered a form of online bullying. ( )
- 40 You can ask your teacher to help you solve the problems you face online. ( )
- 41 Cooperation is when someone repeatedly behaves badly towards another person ( )
- 42 You can ask help from the Anti-Cybercrime Department if your information and personal accounts are stolen. ( )
- 43 It is important to have a strong password to protect your electronic accounts. ( )
- 44 Viruses are useful software for the computer. ( )
- 45 The password (abc123) is considered a strong password that can be used for your electronic accounts. ( )
- 46 Antivirus software is used to protect your files on the computer from damage. ( )
- 47 The password (765QdvL!@VtM) is considered a strong password. ( )
- 48 Emails are a form of viruses that can be sent to your device. ( )
- 49 The Power point app used to prepare digital reports on different topics. ( )
- 50 The presentation program does not allow adding images and effects to slides. ( )
- 51 The Power point app is a fun way to present others' ideas. ( )
- 52 The Power point app does not allow you to add video to slides ( )
- 53 The Power point app can be used to create a presentation in the form of a book. ( )
- 54 The presentation program does not allow you to create advertising posters in bright colors. ( )
- 55 Spam is an email that you receive from an unknown email address and contains an advertisement. ( )
- 56 Secure browsers are those that send alerts to users when they try to access an unsafe website. ( )

- 57 - It is preferable that your personal data be available for all users to see and keep. ( )
- 58 Excessive use of electronic devices may cause eye strain and headaches ( )
- 59 It is not necessary to mention the source of the information when publishing it on social media sites. ( )
- 60 It is necessary to use ICT tools in an ethical manner. ( )

### Choose the correct answers:

- 1-The ..... device is used to detect minerals buried in the ground .  
a. Magnetometer      b. GPS      c. Ground-penetrating radar      d. Drones
- ٢- To locate objects we use .....  
a. Magnetometer      b. Ground-penetrating radar  
c. Global Positioning System (GPS)      d. Drones
- ٣- Photographs can be taken using.....  
a. Magnetometer      b. GPS      c. Ground-penetrating radar      d. Drones
- 4- The magnetometer relies on ..... to detect objects buried underground  
a. Radar      b. Satellites      C- drones      D- magnetic field measurement
- 5- The Global Positioning System (GPS) relies on ..... to determine places and locations .  
a. Magnetic field measurement      b. Radar      C. drones      D. satellites
- 6- You can use ..... to locate objects underground .  
a. Airplanes      b. Photographs      c. GPS      d. Ground-penetrating radar
- 7- Archaeologists have relied on..... to search for minerals underground.  
a- Aircraft      b- Photographs      C- Global Positioning System      D- Magnetometer
- 8- ..... is used to output sounds from a computer.  
a. Speakers      b. Microphone      c. Keyboard      d. Printer
- ٩- ..... is used to display data, images, and videos.  
a. Screen      b. Speaker      c. Keyboard      d. Printer

10-.....is an input device

- a. Microphone      b. Display screen      c. Speech synthesizer

d. Printer

11- ..... device helps non-speaking people to use the computer.

- a- Speech synthesizer      b- Microphone      C- Speaker      D- Printer

12-..... device allows blind people to use a computer.

- a. Braille Terminal      b. Mouse      c. Keyboard      d. Printer

13- ..... is used to input text and images from paper to a computer.

- a. Microphone      b. Scanner      c. Mouse      d. Printer

14- The keyboard is used to enter ..... into the computer.

- a- Letters and numbers      b- Pictures      C- Sounds      D- Videos

15- The ..... allows blind people to use the computer.

- a- Braille terminal system      b- Mouse      C- Keyboard      D- Printer

16- .....receives data from the operating system

- a. Monitor      b. CPU      c. Word program      d. scanner

17- The..... program is an operating system program.

- a. Google      b. Windows      c. Word      d. Power Point

18- We use..... program for writing and formatting text and inserting images.

- a. Windows      b. Word      c. Google Chrome      d. Power Point

19- The ..... is considered one of the necessary software to operate the computer.

- a. Google Chrome      b. Operating system      c. Microsoft Word      d. Presentations

20- The CPU processes.....

- a. Keyboard      b. Data      c. Monitor      d. Mouse

21- The operating system receives ..... from the CPU and then displays it on the screen

- a. Keyboard      b. information      C. Mouse      D. Printer

22- ..... is a program that allows you to browse the internet.

- a- Google Chrome      b- Windows      c- power point      d- Word

23- One of the components of a computer responsible for controlling and processing data is .....

- a. Keyboard      b. CPU      c. Word program      d. Operating systems

24- ..... Helps the visually impaired interact with the screen and magnify it

- a. Headphones      b. Screen magnification software

C. Sports equipment

D. communication tools

25- ..... helps Hearing impaired people

a. medical hearing aids    b. keyboard    C. printer    d. screen magnification software

26- You can solve the problem of the screen stopping displaying information (Screen freezes), by pressing the keys ..... together.

a. Alt + Del + Shift

b. Del + tab + Ctrl

c. Alt + Tab

d. Alt + Ctrl + Del

27- The keyboard doesn't work even though it's connected properly, so .....

a. Delete some documents

b. Delete an application

c. make sure the keyboard cable is connected

d. restart the device

28- Which of the following programs is the best for representing data graphically?

A- Excel spreadsheet program

B- Wi-Fi

C- USB

D- Flash Memory

29- ..... are credible or reliable sources that can be referred to collect information

A- Surveys, interviews and experiments.

B-entertainment videos

C- Keyboard

D- Ethernet cable

30- A video file was sent by someone you don't know to your social media account. You should....

A- Download the file to watch it.

B- Download more programs

C- Tell your guardian but don't open the file.

D- Download the Word program

31- A friend of yours sent you a strange and scary picture. You should.

A- Send the picture to all your friends

B- Tell your guardian to help you

C- Copy the picture to your device.

D- Send a thank you to the sender.

32- - ..... of the negative effects of using ICT tools

A- Obtaining information easily.

B- Communicating with friends anywhere and anytime.

C- Eye strain and headache.

D- Viewing the latest news and developments.

33- ..... a feature used to tag one of your friends on social networking sites.

A- Tag

B- Send

C- Share

D- Like

34- When someone you do not know sends you a warning message over the Internet, you should...

- a. Ask your parent for help.
- b. Open the message
- c. Send a friend request to the sender.
- d. Publish the message online.

35- The symbol ..... is used during the search process on the Internet before words that you do not want to include in the search results.

- a. ( - )
- b. ( + )
- c. ( # )
- d. ( / )

36- ..... is when someone repeatedly behaves badly towards another person.

- a. Brainstorming
- b. Bullying
- c. Cooperation
- d. Sharing experiences

37- ..... is when someone uses your personal information and accounts on social media without permission.

- a. Identity theft
- b. sharing experiences
- c. Cooperation
- d. Brainstorming

38- It enables someone to access the computer through the Internet.

- a. Curiosity
- b. Hacking
- c. Sharing
- d. Bullying

39- You can protect your personal accounts on the Internet by creating .....

- a. Strong password
- b. Your personal data
- c. home
- d. your date of birth

40. Use the..... program to prepare an interesting and attractive presentation.

- a. word
- b. power point
- c. excel
- d. paint

41- The Power point program enables you to make.....

- a. posters
- b. video conference
- c. voice chat
- d. email

42- The feature ..... is used to mention your friends on social networking sites

- a. tag
- b. send
- c. share
- d. like

43- The symbol ..... is used during the Internet search process before words that you do not want to include in the search results.

- a. " - "
- b. - " + "
- c. " # "
- d. - " / "

- 52 The Power point app does not allow you to add video to slides (X)
- 53 The Power point app can be used to create a presentation in the form of a book. (v)
- 54 The presentation program does not allow you to create advertising posters in bright colors. (X)
- 55 Spam is an email that you receive from an unknown email address and contains an advertisement. (v)
- 56 Secure browsers are those that send alerts to users when they try to access an unsafe website. (v)

- 57 - It is preferable that your personal data be available for all users to see and keep. (X)
- 58 Excessive use of electronic devices may cause eye strain and headaches (V)
- 59 It is not necessary to mention the source of the information when publishing it on social media sites. (X)
- 60 It is necessary to use ICT tools in an ethical manner. (V)

### Choose the correct answers:

- 1-The ..... device is used to detect minerals buried in the ground .  
a. Magnetometer      b. GPS      c. Ground-penetrating radar      d. Drones
- ٢- To locate objects we use .....  
a. Magnetometer      b. Ground-penetrating radar  
c. Global Positioning System (GPS)      d. Drones
- ٣- Photographs can be taken using.....  
a. Magnetometer      b. GPS      c. Ground-penetrating radar      d. Drones
- 4- The magnetometer relies on ..... to detect objects buried underground  
a. Radar      b. Satellites      c- drones      d- magnetic field measurement
- 5- The Global Positioning System (GPS) relies on ..... to determine places and locations .  
a. Magnetic field measurement      b. Radar      c. drones      d. satellites
- 6- You can use ..... to locate objects underground .  
a. Airplanes      b. Photographs      c. GPS      d. Ground-penetrating radar
- 7- Archaeologists have relied on..... to search for minerals underground.  
a- Aircraft      b- Photographs      c- Global Positioning System      d- Magnetometer
- 8- ..... is used to output sounds from a computer.  
a. Speakers      b. Microphone      c. Keyboard      d. Printer
- ٩- ..... is used to display data, images, and videos.  
a. Screen      b. Speaker      c. Keyboard      d. Printer

10-.....is an input device

- a. Microphone                      b. Display screen                      c. Speech synthesizer

d. Printer

11- ..... device helps non-speaking people to use the computer.

- a- Speech synthesizer                      b- Microphone                      C- Speaker                      D- Printer

12-..... device allows blind people to use a computer.

- a. Braille Terminal                      b. Mouse                      c. Keyboard                      d. Printer

13- ..... is used is used to input text and images from paper to a computer.

- a. Microphone                      b. Scanner                      c. Mouse                      d. Printer

14- The keyboard is used to enter ..... into the computer.

- a- Letters and numbers                      b- Pictures                      C- Sounds                      D- Videos

15- The ..... allows blind people to use the computer.

- a- Braille terminal system                      b- Mouse                      C- Keyboard                      D- Printer

16- .....receives data from the operating system

- a. Monitor                      b. CPU                      c. Word program                      d. scanner

17- The..... program is an operating system program.

- a. Google                      b. Windows                      c. Word                      d. Power Point

18- We use..... program for writing and formatting text and inserting images.

- a. Windows                      b. Word                      c. Google Chrome                      d. Power Point

19- The ..... is considered one of the necessary software to operate the computer.

- a. Google Chrome                      b. Operating system                      c. Microsoft Word                      d. Presentations

20- The CPU processes.....

- a. Keyboard                      b. Data                      c. Monitor                      d. Mouse

21- The operating system receives ..... from the CPU and then displays it on the screen

- a. Keyboard                      b. information                      C. Mouse                      D. Printer

22- ..... is a program that allows you to browse the internet.

- a- Google Chrome                      b- Windows                      c- power point                      d- Word

23- One of the components of a computer responsible for controlling and processing data is .....

- a. Keyboard                      b. CPU                      c. Word program                      d. Operating systems

A- Tag

B- Send

C- Share

D- Like

34- When someone you do not know sends you a warning message over the Internet, you should...

- a. Ask your parent for help.
- b. Open the message
- c. Send a friend request to the sender.
- d. Publish the message online.

35- The symbol ..... is used during the search process on the Internet before words that you do not want to include in the search results.

- a. ( - )
- b. ( + )
- c. ( # )
- d. ( / )

36- ..... is when someone repeatedly behaves badly towards another person.

- a. Brainstorming
- b. Bullying
- c. Cooperation
- d. Sharing experiences

37- ..... is when someone uses your personal information and accounts on social media without permission.

- a. Identity theft
- b. sharing experiences
- c. Cooperation
- d. Brainstorming

38- It enables someone to access the computer through the Internet.

- a. Curiosity
- b. Hacking
- c. Sharing
- d. Bullying

39- You can protect your personal accounts on the Internet by creating .....

- a. Strong password
- b. Your personal data
- c. home
- d. your date of birth

40- Use the..... program to prepare an interesting and attractive presentation.

- a. word
- b. power point
- c. excel
- d. paint

41- The Power point program enables you to make.....

- a. posters
- b. video conference
- c. voice chat
- d. email

42- The feature ..... is used to mention your friends on social networking sites

- a. tag
- b. send
- c. share
- d. like

43- The symbol ..... is used during the Internet search process before words that you do not want to include in the search results.

- a. " - "
- b. - " + "
- c. " # "
- d. - " / "
